

# Religious Education and Philosophy for Children: Teaching through enquiry

Friday 20<sup>th</sup> March, 9am – 3pm, Ashmount School, Loughborough

---

This course is being led by Wendy Harrison, an independent education consultant.

## About this course

This course will look at how it is possible in RE to develop a knowledge led curriculum alongside an enquiry based approach.

This day is a great opportunity to further develop your RE subject knowledge as well as gain ideas for teaching RE successfully.

## Who should attend?

This course is suitable for classroom teachers who feel they would like to develop their own RE subject knowledge in order to feel more confident when teaching RE.

Whilst it's very suitable for non-specialists, the day would also be beneficial to more experienced classroom teachers who are interested in refreshing their approaches to teaching RE.

## About the trainer

**Wendy Harrison** works as an independent consultant offering bespoke support and training for primary and secondary schools on a range of issues, e.g. curriculum review and development, preparation for Ofsted, religious education, SMSC and British values.

She works part-time as the RE Adviser for two local authorities, supporting primary and secondary schools in areas such as planning, assessment and teaching about religions and world-views.
